

Define Problem Statement

Date	
Team ID	LTVIP2025TMID28546
Project Name	LAPTOP REQUEST CATALOG ITEM
Maximum Marks	

Problem Statement:

Employees in the organization need a quick and efficient way to request laptops for work. The current process is manual and prone to delays, with no dynamic form behavior to guide users or ensure accurate data collection. To address this, a Service Catalog item needs to be created, allowing users to easily request a laptop, with dynamic fields, clear instructions, and additional functionality like resetting the form if needed. The solution should also ensure all changes are tracked for governance and deployment.

The screenshot displays the 'Smart Internz' Project Workspace for the 'LAPTOP REQUEST CATALOG ITEM' project. The interface includes a sidebar with navigation links: Dashboard, Internship, and Support. The main workspace is divided into two sections: 'Guided Project' and 'Project Workspace'. The 'Project Workspace' section shows a list of project steps: Update Set, Service Catalog Item, UI Policy, UI Action, Export Update Set, Login To Another Instance, Testing, and Conclusion. The 'Guided Project' section displays a detailed problem statement for the 'LAPTOP REQUEST CATALOG ITEM' project.

LAPTOP REQUEST CATALOG ITEM

Problem Statement:
Employees in the organization need a quick and efficient way to request laptops for work. The current process is manual and prone to delays, with no dynamic form behavior to guide users or ensure accurate data collection. To address this, a Service Catalog item needs to be created, allowing users to easily request a laptop, with dynamic fields, clear instructions, and additional functionality like resetting the form if needed. The solution should also ensure all changes are tracked for governance and deployment.
